Modern milk collection technology and logistics – all from a single source.

Transportation, technology, and service: Schwarte Jansky develops and manufactures high quality customized solutions for the efficient collection cycle.

- Complete solutions, components and individual custom-made
- Wide range of milk collection vehicles with the best handling characteristics: Vehicle bodies, semi-trailer, tank trailer – as well as beer-tank systems, agricultural technology and waste disposal vehicles
- Reliable sampling and sample transport systems and data and up to date control technology
- Production of high-quality stainless steel, with a modern machine fleet and capacity for demanding large-scale projects
- Tailored services – from a Europe-wide service network for maintenance and repair to customized leasing and financing offers

Containers and equipment construction at the highest level.

Premium Quality from A to Z:
Schwarte Milfor is synonymous with quality storage and process solutions for liquid food and sensitive substances.

- Storage silos, process and mixing tanks – in aseptic and non-aseptic design
- A wide range of solutions from stock plants on vertical and horizontal systems to space-saving multi-compartment containers
- Large range of equipment and special machines for agitators, process and reaction vessels
- Diverse industry and customer solutions for dairies, beverage and food industry, pharmaceuticals, cosmetics and chemical industries
- From one source: Consulting and project planning, design and production, logistics and on-site assembly
- Full service program: Maintenance and refurbishment work, repairs and spare parts delivery and warranty service

Pioneering solutions for manufacturing, sales and service.

Many ways – one goal: maximum success for our customers. For this, over 380 employees in three countries and many other partners across Europe are involved.

- ▄ Consulting and Engineering
